

ANALOG KITCHEN // RIDER

TECHNICAL RIDER

10x Powersockets (or more)

2x powered monitors in stereo (Min 90 Watts)

- Sound Technician on standby at entering the booth
- Soundcheck if possible
- Please make sure there is enough free space available for Analog Kitchen's gear. At least 190 cm in width and 90 cm in depth is needed to perform. See picture below!
- A clean booth without drinks from the previous artist
- The booth should not be higher than 1,05 meter and no lower than 90 centimeters.
- Allow for a table behind the dj booth, free of drinks for packing & unpacking Lucien's equipment.
- Direct connection with front of house (not via dj-mixer) - contact us when there are questions!
- Stereo mixer output available for doing a stereo recording (Not a dj mixer)

People love to hang around the setup and ask question and/or want to touch the gear. Please keep drunk punters/drunks/klingons/enthusiasts away from the artist till after all has been installed and connected properly.

For information check: www.youtube.com/AnalogKitchen
